

Immupact

Dosage and Administration

IMMUPACT™ is recommended as a daily supplement. Give orally once daily according to body weight (1 scoop (included) = 2.5 g).

- Under 5 lbs: 1/2 scoop/day (1.25 g)
- 5-15 lbs: 1 scoop/day (2.5 g)
- 15-30 lbs: 2 scoops/day (5.0 g)
- Over 30 lbs: 3 scoops/day (7.5 g)

12Kcal/ 2.5g (1 scoop)

Recommendations For Use: For cats and dogs only. IMMUPACT™ is an all-in-one supplement developed by veterinarians and scientists for cats and dogs of all ages. It contains over 50 natural beneficial components including growth, immune, and metabolic factors. These factors work in concert to support normal immune function and cellular growth and repair. IMMUPACT™ may be beneficial to your pet's oral health and gastrointestinal tract.

Cautions: Not recommended for use in pets that are intolerant to lactose or allergic to milk proteins.

Warnings: For animal use only. Colostrum has no known toxicity or drug interactions.
